

SCOPE

The proposed two days National Level Conference on "Recent Trends in Herbal Drug Technology" provides a dissemination of knowledge in newer trends and advances in research in various arenas of natural products. We intend to amalgamate the expertise from the experts in academics & the herbal industry, so as to update the beneficiaries with the current developments in different areas related to natural products. Interactive sessions of the Resource Persons with the students, faculty & people from industry will help them to update their knowledge in different areas of natural product research. Finally a poster presentation competition will facilitate an exchange of new ideas of research amongst the beneficiaries attending the conference.

OBJECTIVES

- To focus on recent technological advances in the field of herbal drug analysis.
- To focus on significant role of medicinal herbs as a potential source of therapeutic aid.
- To provide platform for interaction of students with academicians and industry persons from different organizations.
- To provide platform to students and academicians for promotion of research attitude.
